In l'Écart's basement

The comrades are in a pickle! *Pologne-en-sous-sol* is a haunted punk house where members of the fallen neo-rural commune *Pologne-en-Québec* got trapped by a mischievous straw man: the one and only, Chochot. In this ghostly world of secrets hidden in the rotten garden of good intentions we invite you to participate in a series of queer rituals and entertainments to help release our enchanted friends. Commune members Sylvio (Mycelium) and Union (Michael Martini) will guide you through an escape room game, quiz night and a spooky themed karaoke.

Corpesented by AXENEO7 and l'Écart, *Pologne-en-sous-sol* by Kinga Michalska, Sarah Chouinard-Poirier, Lari Jalbert, Michael Martini and Mycelium extends the exhibition *Pologne-en-Québec*. The project is part of *terres en mouvement*, an initiative led by the two centres and supported by the Conseil des arts et des lettres du Québec through its *Soutien à des initiatives structurantes* program.

The space is only accessible by stairs; there is no elevator on site.
